

Salimon Oluwatoyin Ayanleye

Cloud Security Engineer

✉ ayanleyetoyin@outlook.com | ☎ +31 644 04 16 85 | 🔗 linkedin.com/in/toyin-ayanleye | 📍 The Hague, Netherlands

SUMMARY

Highly skilled Cloud and Security Engineer with extensive experience designing, deploying, and securing cloud-based solutions on AWS. Proven track record in leading ISO 27001 and SOC 2 Type II compliance efforts, managing CI/CD pipelines, and optimising cloud infrastructure for scalability and cost efficiency. Demonstrated expertise in penetration testing, vulnerability management, and secure application development. Adept at leveraging automation, containerisation, and security best practices to deliver robust and secure systems, seeking to apply technical understanding in cloud engineering and security to drive innovation and enhance security in various environments.

SKILLS & INTERESTS

- **Cloud Platforms & Technologies:** AWS, Docker, Kubernetes, Terraform
- **Programming Languages:** Python, Bash, JavaScript, SQL, NoSQL
- **Security:** Threat Modeling, Security Automation, Vulnerability Management, Web Application Security, API Security, Penetration Testing, DAST, SAST, OWASP Top 10
- **CI/CD & DevOps:** GitHub Actions, CloudFormation, AWS CDK, Terraform, CodePipeline, Git
- **Compliance & Governance:** ISO 27001, SOC 2 Type II, Vanta, Audit Coordination, Policy Development
- **Tools & Technologies:** Burp Suite Pro, Metasploit, Wireshark, Nessus, Postman, Jira, Confluence, OpenSearch, Grafana
- **Additional Skills:** Test-Driven Development, Agile/Scrum Methodologies, Incident Response, Automation Scripting

PROFESSIONAL EXPERIENCE

Security Engineer

Mambu Tech B.V., Amsterdam, Netherlands

Nov. 2024 – Present

- **Infrastructure Security:** Engaged in collaborative efforts to safeguard infrastructure cloud design and the formulation of implementation practices.
- **Threat Modelling:** Participated in threat modelling sessions and performed risk analysis and mitigation workshops with stakeholders of new capabilities or product changes that may impact security.

Cloud Engineer

AMMP Technologies B.V., Amsterdam, Netherlands

Dec. 2023 – Oct. 2024

- **ISO 27001 & SOC 2 Type II Compliance:** Spearheaded certification processes, ensuring 100% compliance with ISO 27001 and SOC 2 Type II standards, which strengthened client trust and secured new business opportunities.
- **Vulnerability Management:** Reduced impactful security vulnerabilities by 60% using Vanta and implementing SAST in CI/CD pipelines.
- **CI/CD Pipeline Optimization:** Enhanced deployment efficiency by 30% across multiple services by redesigning CI/CD pipelines using GitHub Actions, CloudFormation, and CodePipeline.
- **Cloud Infrastructure Optimization:** Architected and maintained a highly secure, scalable AWS infrastructure, improving system uptime by 25% while reducing costs by 15% through strategic resource allocation.
- **InfluxDB Migration:** Led the migration of InfluxDB from a monolithic EC2 setup to an ECS cluster, resulting in a 20% increase in system performance and a 25% reduction in operational costs.

Data Engineer

AMMP Technologies B.V., Amsterdam, Netherlands

Jun. 2022 – Dec. 2023

- **Data Acquisition Services:** Developed and deployed 20+ serverless applications and 10+ containerised services in Python, boosting data processing speed by 40% and reducing downtime by 15%.

- **Python Library Development:** Created and maintained essential libraries that improved API integration and data processing, leading to a 30% increase in workflow efficiency.
- **Cost Optimization:** Achieved a 20% reduction in AWS operational costs by optimising resource allocation, improving memory management, and migrating to ARM64 compute.

Bug Bounty Hunter

HackerOne, Remote

Apr. 2022 – Mar. 2023

- **Vulnerability Exploitation:** Discovered critical XXE and SSRF vulnerabilities in a Java application, leading to a \$2,000 payout after securing AWS access keys and reporting the flaw.
- **JavaScript Security Analysis:** Exploited frontend JavaScript vulnerabilities, successfully retrieving user credentials and API keys, contributing to platform-wide security improvements.
- **API Key Exposure:** Uncovered and reported leaked API keys, securing control of vulnerable customer accounts, leading to a significant bounty and implementing stricter security measures.

Web Application Security Tester

Freelance, Lagos, Nigeria

Dec. 2021 – Mar. 2022

- **Source Code Breach:** Identified and exploited exposed .git directories, discovering multiple vulnerabilities and a comprehensive security overhaul.
- **SQL Injection & Server Exploitation:** Successfully executed SQL injection attacks on phpMyAdmin, compromising multiple domains and leading to a 50% improvement in server security post-remediation.
- **Critical System Compromise:** Breached a significant government system by exploiting SQL injection and SSRF vulnerabilities, prompting a government-wide security review and protocol tightening.
- **WordPress Admin Takeover:** Gained code execution on WordPress through password reuse attacks, uncovering critical vulnerabilities and resulting in improved credential management policies.

CERTIFICATIONS

- **AWS Certified Security - Specialty** | Aug. 2024
- **AWS Certified Solutions Architect – Professional** | Oct. 2024
- **AWS Certified Solutions Architect – Associate** | Nov. 2023
- **AWS Certified Cloud Practitioner** | Jul. 2023

PROJECTS

- **Automated Application Security Testing System:** Designed and deployed an AWS-hosted solution automating reconnaissance, testing, exploitation, and reporting vulnerabilities, resulting in a 50% increase in testing efficiency.
- **Bug Bounty Recon Script:** Developed Python and Bash scripts to streamline the reconnaissance phase in bug bounty hunting, improving time management by 35%.

EDUCATION

University of Ibadan | BSc in Electrical and Electronics Engineering | 2023

- **Cybersecurity Lead**, Google Developer Student Club, UI Chapter

ACTIVITIES

- **M4xH3dr00m** | Team Member | Jun. 2021 – Present
We are engaged in ethical hacking, cybersecurity research, and security tool development.

AWARDS

- **Cybersecurity Hackathon** | American Business Council | 2021
- **Nigerian National Cyber Security CTF** | CyberTalents | 2021
